

# CV of Belinda Morris

I am an illustrator working in watercolour, pencil, pastels, ink, gouache and digital. I enjoy all things fantasy especially painting fairies, unicorns and mermaids. My style is very much influenced by the Pre-Raphaelist artists and the illustrators of the Golden Age Period including JW Waterhouse and Arthur Rackham. I am available for illustration work and commissions. My dream project would be to write and illustrate a fantasy book, something with Edwardian ladies, fairies and pet dragons.
